No event will start more than 30 minutes prior to the scheduled time unless all competitors are present.

Ring Etiquette:

Competitors not entered in a specific event are NOT permitted in the ring during the walk-through. If you are entered in an event and you are coaching others (or being coached by others), please show consideration for the rest of the competitors by doing your coaching outside the ring and do not block other competitors, or hold strategy discussions in the ring during the walkthrough. Food is not permitted in the ring at any time. Non-audible toys in good condition are allowed in the ring only during FEO runs and may be thrown up to ten feet. Dogs must enter and exit the ring on a leash - the leash may be dropped at the start line, or carried in the handler's pocket.

Dog Control and Aggression Issues:

All dogs must be kept in an X-pen, crate, in your car, or on a leash when not in the ring (this includes the grounds and the parking lot). To prevent incidents of dog aggression towards other dogs and/or people, please give all dogs lots of room and be aware of your dog's behaviour at all times. Any dog engaging in aggressive behaviour at any time may be required to leave the grounds at the sole discretion of the trial host and/or judge. In such cases, NO refunds will be issued.

Classes Offered:

Hoopers (H) – courses designed using hoops only. Points gained in Hoopers (H) classes count for progression in this class only.

Parkour (P) – courses designed by using a combination of hoops, barrels, tunnels, and gates. Points gained in Parkour (P) classes count for progression in this class only.

Tungo (TG) – courses designed by using mainly barrels and tunnels. Must have a hoop as a start and finish obstacle. Points gained in Tungo (T) classes count for progression in this class only.

Size Divisions

CHC has 3 size divisions – small, medium, and large. Dogs must be measured to ensure they compete in the correct size category. Dogs are measured using the foreleg between wrist and elbow, otherwise known as the ulna. Measurement is from the carpal joint (wrist) up to the elbow. Dogs must be a minimum of 15 months for their first measure. Dogs measuring on the borderline of two sizes require an additional measurement at 2 years. By following the guide and diagrams, owners can measure their own dogs and add its measure to their application when registering with Canine Hoopers of Canada. However, if a size category seems questionable, a trial official can ask for the dog to be re-measured.

Ulna Length	Size Category
5 inches and under	Small
5 to 7 inches	Medium
Over 7 inches	Large

Bonus points

Can be earned during competitions by using a Distant Handling Box (DHB) or by using Challenge Lines (CL). All courses must contain a "bonus option" and a minimum of one bonus option is included in each course. The judge will decide whether to use DHBs or CLs

for a course in any class. Bonuses are optional; handlers are not required to attempt them. Handlers may always choose to run with their dogs and still achieve a qualifying score. For handlers using mobility scooters, the handler's lowest point of contact must remain within the box/behind the line. Bonus Area Points Distance Handling Box 5 or 10 15 or 20 For a section of the course For entire course Challenge Lines 5, 10 or 15 2 or 3 challenge lines

Distance Handling Box (DHB)

Distance Handling Boxes are used to earn bonus points in two ways: 1) handlers remain in place for a specific section of a course (5 or 10 points) OR 2) handlers remain in place for the entire course (15 or 20 points). Earning Bonus Points for a specific section of the course (5 or 10 points), enables the handler to attempt a section of the course from a distance without having to remain in the box for the entire course. In order to earn 'bonus section points' the handler must be completely inside the box before their dog starts to negotiate a bonus section and must remain inside that box until that bonus section is completed successfully. When designing the course, the judge determines which section of the course will be worth 5 or 10 points when handled from the DHB. The judge must outline this in their briefing. The DHB must also be shown on the course map. Handlers can earn 15 or 20 points for remaining in the DHB for the entire course. They must be inside the DHB before the dog negotiates the first obstacle and must remain inside that box until the dog has completed the last obstacle on the course. If the handler leaves the box at any point before the dog has successfully completed the last obstacle, then those bonus points will not be awarded. The DHB extra points are awarded for clean runs only.

Challenge Lines (CL)

Challenge lines are permitted in Beginner, Novice and Intermediate levels only. Lines are used to split up the ring area. A course may offer 2 or 3 Challenge Lines at the judge's discretion, depending on course design. 5, 10 or 15 bonus points can be awarded, depending on the number and difficulty of CLs. Challenge Lines cross the entire ring, either horizontally or vertically, giving the handler full freedom of movement across whichever CL they choose to remain behind. Remain behind the line for the entire course to earn bonus points. The direction of the start and finish positions determines the direction of the course and subsequently where the challenge lines are placed, beginning with the highest point line (furthest distance) to the lowest point line (least distance). A handler is permitted to move from a higher value CL to a lower value CL during their run. However, they would only be awarded bonus points for the lower value CL. Challenge Line points are awarded for clean runs only.
